FJC Magazine

2009 ALL VENDOR CATALOG

After reading every buyers guide, product comparison, and vendor website, we thought it would be a good idea to list all FJ Cruiser products from all vendors in one place. We wanted to give our readers one place to look for all FJ Cruiser related products, so the All Vendor Catalog was born.

This catalog is organized by Vendor/Manufacturer to make it easy to see what each company has to offer. All companies are listed in alphabetical order and each company page includes the main categories that company belongs to. You will only find FJ Cruiser specific products in this catalog, generic 4x4 and off road items are not listed, although may be available from some companies.

It should be noted that while we've spent countless hours scouring the internet and working with vendors to get proper product listings it's possible that something was missed. We've included 20 vendors in this catalog, so everything you need should be here. We apologize in advance if we missed a particular product or vendor. Additionally, all prices listed are for reference only. Pricing changes often and cannot be guaranteed. Unless otherwise specified, pricing does not include shipping. Please contact the vendor to verify pricing before ordering.

This information is provided with the hopes that it will be useful, but is in no way guaranteed by FJC Magazine. Listing of any product does not constitute endorsement of that product or company by FJC Magazine.

We hope you enjoy the 2009 All Vendor Catalog and welcome your comments, thoughts, and suggestions at www.fjc-mag.com or via e-mail at fjc@fjc-mag.com. Enjoy the catalog!

Front Skid Plate

Replaces both stock thin sheet metal with 3/16" thick LASER cut steel, CNC press brake formed beef! 3 pieces bolt on to existing mounting points with no welding or fabricating required. Recessed, flat head and carriage bolts give a nice smooth bottom. Only a small drain hole for changing oil interrupts that smooth surface. Rocks, stumps, and lesser vehicles have nothing to catch on. Edges are formed for strength and rigidity with gaps to allow for ease of cleaning and mud removal. Front cooling slots and flow deflector engineered for maximum airflow and maximum protection. Fits around stock cooler mounts and factory crossmember braces! No need for removal or relocation. :)

\$289.00

Beefy Gas Tank Skid

Extra protection for rough use & abuse.

\$369.00

ARB Filler plate

Replaces stock sheet metal piece from ARB with 3/16" steel to match the rest of your skidplate set.

\$140.00

FJ Cruiser Rock Sliders (.120")

BudBuilt sliders are available in 2 different styles and 2 different material thicknesses allowing you to select the perfect strength and style for your FJ! They all bolt to the factory holes with the thickest plates in the industry (3/8"!!) The stock emergency brake lines fit with no modifications. The 2 styles allow you to choose the look and protection that you desire. They come with ultra-thick washers and grade 10.9 metric hardware to attach them.

\$399.00

FJ Cruiser Rock Sliders (.187"), LIFETIME WARRANTY

These will NOT dent, bend, bow, etc for EXTREME rock crawling. These come with a lifetime warranty against bending!

\$559.00

Rear Wrap Around FJC bumper

DeMello Off-Road rear bumper is made from formed 3/16in steel. This high clearance rear bumper offer the most clearance out of all the rear bumpers available for the FJC. The rear bumper also comes standard with rear back up light mounts (back up lights extra) and factory back up sensor mounts. We also fitted the rear bumper with recovery tow points and several flat surfaces to allow for getting to the roof rack or just resting stuff on while in the back of the FJC.

Trail Series Bull Bar Bumper

Similar in design and function to the "standard" trail series bumper, our Bull Bar bumper is designed to give style and protection to the front of your FJ. The main hoop of our FJ bull bar is formed from a single length of 1.5"x .120 wall tubing. With its wrap-around design this bumper offers protection and peace of mind from brush and debris without blocking the headlights or marker lights. Our bull bars are reinforced to ensure function and structural integrity. Comes Standard with Sirius NS Fog or Driving Lights or optional PIAA 510 Lights.

FJ CRUISER AUXILIARY TANK

Our new FJ Cruiser auxiliary fuel tank will be a great addition to any FJ seeking longer range between fill ups. With both range and clearance in mind, it is a perfect solution for the FJ's low fuel capacity. Tank is designed to transfer fuel to main tank as needed. A 95 gallon per hour external electric transfer pump, mounting bracket, wiring, lighted switch, relay, and fuel lines are supplied in the full kit. Kit is supplied with a modified factory fill neck that fills both main and auxillary tanks from the OEM fill location.
